

## EARTH DAY ASSEMBLY - REPORT

Earth Day is an annual event celebrated around the world on April 22nd to demonstrate support for environmental protection. It's a day to appreciate the beauty of nature and to take action to protect our planet.

To dedicate this day to Mother Earth, students of Grade – III A presented a special Assembly on Thursday, 20th April 2023 at Suncity school-45. The assembly aimed at reminding all the importance of taking care of our planet. Young Suncitizens shared the thought and word of the day encouraging all to protect the planet. A Self-composed poem was shared by our young environmentalist- Reyansh Sharma.

The assembly highlighted a very important environmental issue – **the menace of Plastic** wherein consequences of using products made of plastic were highlighted. Suncity greenies also campaigned for sustainable substitutes of plastic carrying beautiful posters and acquainted all with some latest innovations, to reduce reliance on plastic, from around the world. Options like the use of grape waste to create clothes, creating liquid wood from the by-product of paper mills, etc. were shared with all.

The assembly also highlighted the **United Nations Sustainable Development Goals –SDG 9, Innovation and infrastructure and SDG 15, Life on Land.**

The assembly prompted the students what they as individuals can do to help the environment. It motivated them to reduce, reuse, and recycle all waste material. Students were persuaded to conserve energy by turning off lights and appliances when not in use. They were asked to plant trees and reduce the use of plastic, which takes hundreds of years to decompose.

The assembly concluded with the Head of School Ms. Nandita Mathur's speech who emphasized on the imminent need to practice measures to protect Mother Earth. She urged the students to be more responsible and caring towards our environment.
