

## FIRST HOUSE MEETING A REPORT

**“House System is one of the best systems in schools for developing life skills and achieving desirable outcomes in scholastic as well as co-scholastic areas. It inculcates a sense of healthy competition among students.”**

To achieve this objective, *Suncity School held a House Meeting on Friday, 5th April 2024* to make the students cognizant of their respective houses.

The commencement of the new session began with a House Meeting to discuss the objectives of having the system of ‘Houses’ in school, and to provide students information about each house. The school has established four houses namely *ARCTIC, ATLANTIC, PACIFIC and INDIAN* house and each student is assigned one of these houses.

The House Meeting was quite interactive with students from different classes coming together to participate. The students learnt about the concept of ‘Houses’, and how it promotes a sense of belonging, teamwork, and healthy competition among the students.

Thereafter, further information regarding **the colour, motto, symbol** etc. of each house was shared with the students. They enjoyed learning about the house motto and symbols of all houses.

They also coloured their house symbols exuberantly and their joy knew no bounds as they shared their work with their teachers. It was, indeed, an informative meeting which helped to promote team spirit and a sense of belonging amongst all the students.
