

Special Class Assembly by the students of Grade I B

‘AIR POLLUTION SOLUTION MEET’

“Time to realize, analyze and take action” **Joining hands to reduce Air pollution in our town**

“Preserve and cherish the pale blue dot, it’s the only home we’ve known”
-- Carl Sagan

Grade 1B organized a Special class assembly, **‘AIR POLLUTION SOLUTION MEET’** on Thursday, 15th December to propel fellow students towards greater sense of urgency about global pandemic that’s underway and how we can solve it together. With this assembly, students highlighted how air pollutants attack our lungs and health and finally our wellbeing. It’s all around us and yet we don’t see it because we have largely chosen to ignore it. But it is time we wake up before it gets too late. The assembly began with seeking the blessings of the Almighty, followed by the thought of the day and the news headlines.

A skit was performed by the students that motivated all to stand up for a basic human need: clean air. The skit illustrated how air pollution has become one of the biggest concerns globally while in India it has reached an alarming stage. It highlighted the inside story of how different pollutants are affecting our body and health. The situation is clearly worsening over time but we can do something about it by joining hands. The simplest way is to limit our contribution to producing these air pollutants. Small actions like switching off the lights when not in use, using air coolers instead of running AC all the time in summers, walking or cycling instead of driving to nearby places etc. can make a big difference. Any effort, even a tiny endeavor would go a long way in having clean air.

Little Actions Can Make a Big Difference, come and let’s join hands to create a change today for a better clean world. Every student was exhilarated to participate in the assembly.

Later, our little rocking stars highlighted how the world looks happy through their dance performance “It’s a beautiful Day”. The song conveyed nuances about how small steps can help to create clean air. It also highlighted the importance of conserving resources for our future generations.

The sheer exuberance of the assembly left an indelible imprint on young minds to take actions and be integral part of Air Pollution Solution Meet. Parents also participated and proposed easy steps to ensure better Air quality.

The assembly concluded with motivating words by the Head of School, Ms Nandita Mathur.

And this is what our parents had to say about the assembly.....

FEEDBACK FOR THE
GRADE 1B SPECIAL ASSEMBLY

Date: 15TH Dec. 2022

Parent's name: Neha kumar. **Child's name** Meher kumar.

Feedback: It was a wonderful show put up by the
class and the teacher. Special thanks to Ruchi
Ma'am for her hardwork and mentorship. Loved
every bit of it.

Signature: Neha.

FEEDBACK FOR THE
GRADE 1B SPECIAL ASSEMBLY

Date: 15TH Dec. 2022

Parent's name: Meeta Gullati Child's name Mishika Gullati

Feedback: The show was very well prepared and articulated.

The teachers & kids had put in lots of efforts, time & energy
to make it a success. Looking forward to many such events.

Signature: Meeta

FEEDBACK FOR THE
GRADE 1B SPECIAL ASSEMBLY

Date: 15TH Dec. 2022

Parent's name: Vishu Chawla Child's name Abir Chawla

Feedback: Excellent performance by everyone!!

Very relevant topic and it's great to educate
the children about it.

Thank You!!

Signature: Vishu

FEEDBACK FOR THE
GRADE 1B SPECIAL ASSEMBLY

Date: 15TH Dec. 2022

Parent's name: JAYASA KHANNA Child's name DHIR KHANNA

Feedback: Amazing show very well articulated and
presented. Great efforts by the teacher in
charge and building confidence to participate
and present to the audience in large.
Great work keep it up !!

Signature: Jiyasa Khanna !!
